cool relief

ELITE
SERIES

XC13

High-efficiency
air conditioner

Get relief from the heat and high utility bills.

The Elite® Series XC13 air conditioner provides cool, comforting relief on even the hottest of days. Its advanced scroll compressor, the engine behind the system, works reliably around the clock to maintain consistent temperature and humidity levels. A condenser coil, the part of the system that transfers heat away from the system, operates efficiently to give you a break in the form of lower utility bills.

The XC13 also features a precision-balanced, direct-drive fan that helps keep the environment outside your home quiet. And that means relaxation for your family, friends and neighbors.

Relief that comes from reliable performance

The XC13 represents Lennox' ongoing commitment to deliver the highest possible level of reliability. Every air conditioning unit meets our most stringent standards of excellence, proved through extensive lab testing that ensures maximum performance and dependability.

Added peace of mind

The XC13 is protected by a 10-year limited warranty on the compressor and a 10-year limited warranty* on all remaining covered components.

Money-saving energy efficiency

With **cooling efficiency ratings up to 15.50 SEER,**** the XC13 can **save you hundreds of dollars each year** on utility bills, compared to older or conventional units.

SEER stands for "Seasonal Energy Efficiency Ratio" and is a measure of the cooling efficiency of air conditioners. The higher the SEER, the greater your energy savings. Typical SEER ratings start at 13.00, but the XC13 carries ratings as high as 15.50.

Savings chart shows the 5-year savings you can expect from a 15.50 SEER air conditioner vs. existing equipment with a 10.00 SEER rating. The regions used to calculate household fuel and utility costs reflect a cross-section of cities in the U.S. In addition to geography, cooling costs indicated are based on 3-ton capacity specifications, with 1,600 cooling hours per year and 12.29 cents per kWh (Source: EIA National average electric rate, August 2014 YTD). Your actual costs may vary depending on the weather, local fuel rates, system settings and your personal lifestyle.

*Online equipment registration at www.lennoxregistration.com is required within 60 days of installation (except in California and Quebec) or Lennox' base warranty will apply. Applies to residential applications only. See actual warranty certificate for details.

**Actual system efficiency may vary depending on the exact system match. Efficiencies are representative of a single AHRI Most Popular matched combination.

feel-good comfort: now that's a relief

A friendlier refrigerant

The XC13's scroll compressor uses the **chlorine-free R-410A refrigerant**, which meets the U.S. EPA's most stringent environmental guidelines. Lennox was one of the first HVAC manufacturers to develop R-410A as an alternative to R-22 (freon).

Choosing a product like the XC13 can improve your comfort, while also helping you save energy and money. For other ways to make your home more efficient, visit ItPaysToLiveSmart.com.

Allergy relief on warm days

The XC13 is designed to work with the Humiditrol® whole-home dehumidification system.*** Patented Humiditrol technology helps reduce humid conditions in the home, lessening the potential for mold and mildew growth.

***Must be accompanied by either a variable speed air handler or furnace and the ComfortSense® 7000 Series touchscreen thermostat.

Elite® Series XC13

Precision-Balanced Direct-Drive Fan – Delivers quiet operation.

High-Efficiency Outdoor Coil – Provides exceptional heat transfer and low air resistance for high-efficiency operation.

Precision-Engineered Scroll Compressor – Provides quiet, efficient and reliable operation even in the most demanding applications.

PermaGuard™ Cabinet – Heavy-gauge, galvanized steel construction, louver coil guard, baked-on powder finish and durable zinc-coated steel base provide long-lasting protection against rust and corrosion.

SmartHinge™ Louver Design – Allows quick, easy access to interior components from all sides, so the unit can be serviced in minimal time.

Drainage Holes – Prevent damaging moisture from collecting inside the basepan.
